

MERČER HOUSE

PROJECT BRIEF
SOUTH TOWER

ENERGISED ENERGISED

URBAN LIVING

At the gateway to Dubai's urban playground, Ellington's first Uptown District development complex features two residential towers standing on a podium dedicated to wellness, retail, sport, and hospitality.

An architectural rendering of the Mercer House development in Dubai at dusk. Two tall, modern skyscrapers with glass facades and illuminated balconies stand prominently. The base of the buildings features a vibrant, multi-level public plaza with greenery, seating, and a large circular structure with a colorful, patterned roof. The sky is a mix of deep blue and orange from the setting sun. The overall atmosphere is one of a modern, lively urban environment.

WELCOME TO MERCER HOUSE

Mercer House is home to residents who will bring new energy to Uptown Dubai. It is a place of belonging for everyone, where the boundaries between shared and resident-only experiences begin to overlap. Lives are enhanced through creativity, design, wellness, and entertainment.

CREATING A RHYTHM

Public access points are carved into the form responding to the rhythm and language of the wider context, and forming a backdrop to the entertainment plaza. Arrival points further enhance the arrival experience and allow for key linkages to commercial offers at the ground floor and upper levels, as well as creating an activated experience for visitors and residents alike.

DESIGN STRATEGY

At the heart of the design concept is the idea of seamless integration – uniting modern urban living, immersive retail experiences, and exceptional dining offerings. The project is driven by the principle of enhancing the quality of life for both residents and visitors, providing a multi-dimensional environment that caters to their diverse needs.
